MISS ADA COFFEY

MISS MARTHA McCORMICK

*The grandeur that was Greece, the glory that was Rome—the success that is with Joplin Junior College: For a quarter of a century, beginning in the beginning, there have been Miss Coffey teaching English and Miss McCormick teaching mathematics in Joplin Junior College.*

*Ada Coffey, believing “The perception of beauty is a moral test,” promotes that philosophy through the interpretation of great literature. Student viewpoints are encouraged, not denied. “Not till the sun excludes you do I exclude you.” Inspired by Ada Coffey, students truly perceive “A thing of beauty is a joy forever; its loveliness increases, it will never pass into nothingness.”*

*Martha McCormick as a teacher of mathematics is a “builder of bridges” but that leaves much unsaid if not correlated with “builder of men.” Miss McCormick knows that as good engineers go “Great heights are not attained by sudden flight.” Her engineers keep returning to the college through the years just to tell her how much her patience, kindness, and understanding have meant.*

However materially wealthy a school may be, the true value of education is derived from class activities. A school is but a tomb without the variety of enrollees ranging from earnest, studious, scholars to vivacious, carefree students to whom classes are a mere necessary evil.

This is one of the first classes held at Joplin Junior College—1938.

Once again the fall and winter sports picture at JJC was highlighted with excitement, success and some disappointment. Although we had a "not so successful" season of football, Coaches Stegge and Landrith guided the Lions to a five out of eight in basketball. Because of the promising line of freshmen, it looks as though next year's teams will provide Juco fans with even more enthusiasm.

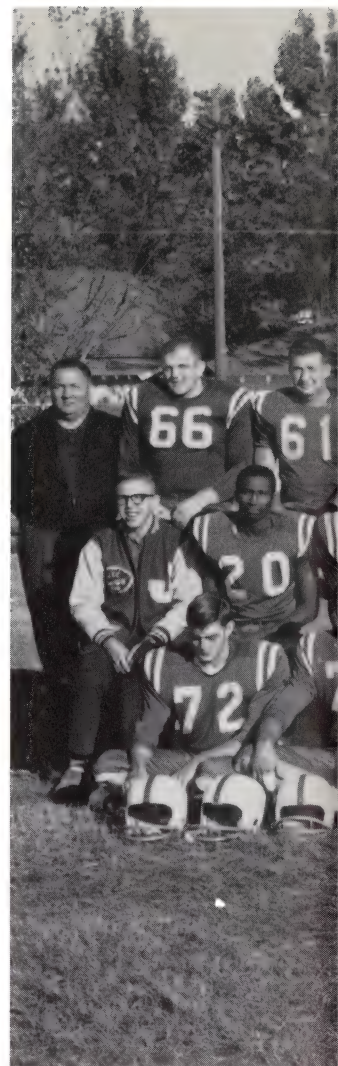

The school spirit of JJC is undying.

*We are proud of our college for its achievements in education, scholarship, sports, fine arts, and citizenship. It is our purpose to carry on these traditions and like those who have gone before us, to make our contributions to the heritage of Joplin Junior College. The past quarter of a century is only a beginning for our college. May posterity build a better JJC.*
